## Consider Sites For New Scout Home

Two possible sites for the proposed new scout hut for Canal Point Boy and Girls Scouts were discussed by members of the Canal Point Lions Club at their dinner meeting Monday night.

One of the sites is a plot north of the Canal Point waterworks plant originally designated as a city park by the owner, the USSC, and the other site is a lot adjoining the Canal Point school grounds. Carmen Salvatore, Sr., local member of the County School Board, who was a visitor, said the board will cooperate with the club to the fullest extent in obtaining a site for the scout hut. It was thought by the group that the property located north of the waterworks would be more appropriate for use as grounds for a scout hut and an attempt will be made to obtain a lease on this property. If this proves unsuccessful the location adjoining the school grounds will be more fully investigated.

A. R. Chastain, sight conservation committee chairman, reported the case of a local child who needs eye care and the club voted as a project to send the child to an eye specialist in West Palm Beach for examination and treatment.

Joe Parker and Earl Maxson were appointed on a committee by President A. R. Harrington to make arrangements to have some one serve meals at club dinner meetings after June 1 inasmuch as the Canal Point WSCS will be unable to serve meals after that date.

Terminating the accident unavoidable, Chief Goodlett said the child was apparently playing underneath the car and was run over when he started to crawl out after Dr. Allison, not knowing he was there, started the car.

The boy was rushed to Belle Glade Hospital where he was pronounced dead on arrival.

The child's father is an assistant chemist at the station engaged in ramie research.

## Took A Long Time

It took twelve years to convince the Florida legislature that women should have the right to serve on juries.

Dade's freshman legislator, Representative Grant Stockdale, sponsored the legislation. It now awaits the signature of Governor Warren. Henceforth any woman willing to serve as a juror may give her name to the Clerk of the Circuit Court and she will go on the prospective list.

It is not world-shaking legislation—despite the reactions of certain legislators who would have us believe that the whole structure of chivalry and unsullied womanhood of Florida would crash to earth if it were made law.

The Stockdale bill is distinct, however, in this: We men folks are gradually learning that women are our equals. The women juror legislation ranks Florida with progressive states.—Miami Herald.

## Cinematic Chatter

By Malcolm Miller

A swash-buckling romantic epic drama done in supergrand manner, in breath taking technicolor, and starring Errol Flynn and a lovely new-comer to the screen, Vivica Lindfors, awaits the patrons of the Prince Theatre, this Sunday-Monday, with the presentation of "Adventures of Don Juan."

Only top-drawer talent has gone into this richly dressed picture. Each department from scenic designer to costumer and artist has contributed the best of their talents to make this a rich tapestry of moving spectacle, romance and adventure.

Flynn, who prefers romantic action roles to the more sedate drawing room assignments, disports in top form. As the legendary lover, swordsman and sometime savior of the throne of Spain, he has a part that fits him like a glove.

Miss Lindfors, queenly in stately garb of breathtaking golds and velvets makes a regal teammate standout.

Robert Douglas, Vincent Sherman, Jerry Wald, Alan Hale and Ann Rutherford head a huge cast of featured players.

See you at the movies—Mal.

**AT THE LOW COST  
OF AN EXTENSION TELEPHONE**

Do you know you can have an extension telephone in your home for only a few cents per day?

The cost is mighty small when you consider the many advantages an extension telephone provides for the home and family. It saves time and steps, affords privacy on the telephone,

protection in an emergency. It makes your telephone more valuable by increasing its usefulness.

All you have to do is call the Telephone Business Office and say: "I'd like to have an extension telephone installed." Why not order yours today?

Orders for main telephone service are sometimes delayed because of shortages of central office and other equipment, which are not involved in the installation of extension telephones.

Curley Lawson's cousin from back East and a few of us got talking when he was here visiting, and I couldn't help noticing how different he said things.

For instance, he said, "Lifting that 200-pound bag of cement almost killed me." "You mean sack of cement?" asks Curley. (That's the way we say it.) "No," interrupts young Elliott who'd spent a lot of time down South. "He means a 'poke of see-ment'."

It was good for a chuckle, anyway. Bag, sack or poke—we knew

what he was trying to say. It just depends on where you are in the U. S., which way sounds right.

From where I sit, whenever we criticize someone for sounding funny to us, we ought to think how we sound to them. It's the same as choosing your liquid refreshment. I'm accustomed to a moderate glass of beer—you may like ginger ale—but who's to say the other's wrong? I'd say we're both right!

## Bathing Beach For Colored Is Open

County Commissioners Monday morning unanimously decided by resolution a 15-acre tract of ocean beach frontage immediately south of Jupiter Inlet for use as a public bathing beach which may be used by negroes.

This action followed discussion of the March grand jury's April 26 recommendation, for the bathing beach, as well as receipt of numerous letters from negro civic organizations and leaders requesting its establishment.

Commissioners said the public bathing area south of the Inlet has a frontage of approximately a quarter mile. It is from 400 to 500

feet in width. It is bounded on the north by the Inlet, on the east by the ocean and is separated from the western lands by a small lagoon. Access is by a county road from State Road 5 approximately a quarter of a mile north of the Log Cabin, commissioners said.

Plans are being prepared, according to commissioners, for construction of sanitary and shower facilities within 30 days. A parking lot accommodating approximately 40 cars has already been built. The commission plans to improve the beach annually from the Parks Fund.

The county bought the land, part of a 36-acre tract in 1942, from the Rittenhaber Homes Corp. for \$30,000. Final payment was made Dec. 18, 1946. Commissioners said the lands were purchased for eventual use as a county park.

The site was recommended by the March grand jury, after conferences with adjacent property owners and negro and other leaders by a grand jury subcommittee in April—Palm Beach Post.

## Special Rate Would Be Set For Track On Fla. West Coast

**TALLAHASSEE**—Sunshine Park track at Tampa would be permitted to operate under a flat \$4,000 per day license instead of the current 8 per cent take for the state under a bill introduced last week.

Senators Laird, Fort Lauderdale, Galt, Miami; Cray, Stuart and Sheldon, of Tampa, proposed in a bill to permit tracks handling only \$250,000 per day to operate under the flat daily license. Sunshine Park is the only track which would be affected by the measure.

W. Frank Hobbs, Tampa, vice president and general manager at Sunshine, said the plan was aimed at helping his track's financial situation.

uation. Hobbs said Sunshine had lost \$400,000 since it opened in 1947.

In the recent season, Sunshine had an average daily handle of \$102,000. Under the betting laws the state's daily share—based on the 8 per cent levy—would have been \$8,160. The bill would mean that instead of paying \$8,160 to the state, the track would pay \$4,000 daily. Of this daily license figure, \$3,000 would go equally to counties and \$1,000 plus the "breaks" to state old age insurance.

Hobbs said, "We're just tired of losing money. Our operations so far have demonstrated that no horse track can operate on the West Coast on a daily mutual play of \$100,000."

According to Dr. William F. Libby of the University of Chicago's Institute for Nuclear Studies there are about 30 tons of radioactive carbon in the world.

Florida banks and trust companies had a record \$70,000,000 in assets during April, it is reported by Comptroller C.M. Gay.

## Ringling Museum In The Movies Now

SARASOTA—The Florida State Advertising Commission is making a motion picture of the Ringling Museums. Representatives of the Florida State News and Photo Service, official publicity bureau for the Commission, have been at the museum working on the project.

The Movie is the first of a proposed series being made by the state to help tell the story of Florida. Distribution will be national as well as statewide. In color, the movie will be released through the educational system to the schools; in black-and-white, it will be shown far and wide through television.

Emphasis is placed on the manner in which museum facilities are made use of by the educational institutions of the state. There will be shots of children being conducted through the galleries and court of the John and Mable Ringling Museum of Art, and of Florida State University students taking part in the art seminar which is an annual event.

The project has been organized by Howe Sadler, director of the Florida News and Photo Service. He is being assisted by Carl Livingston, Morris Monts de Oca, and Edward Lippman. Lippman is the photographer who scooped the world with his picture of a B-25 crashing into the 79th floor of the Empire State Building in New York in 1945.

## Nation Coin Week Was Observed

JACKSONVILLE—Last week was observed as Nation Coin Week, following the issuance of a proclamation by Mayor C. Frank Whitehead. The observance was held throughout the United States under the sponsorship of the American Numismatic Association. Details were handled locally by the Southeastern Regional group of the American Numismatic Association. Leon Forbes is regional president.

In his proclamation, Mayor Whitehead urged that citizens not interested in coin collecting to select this as their hobby. Several displays of coins and bills were in downtown windows during the observance. The week was observed in a number of Florida cities.

## Figures Show Cost Paid By People

JACKSONVILLE—The Florida Tax Revision League, Inc., recently prepared figures showing the total government cost paid by the people of Florida for federal, state and local government, comparing the year 1940 with 1948.

The total for 1940, including federal taxes collected from Florida, and the state, county, school and municipal expenditures, amounted to \$211,543,582, while the figure for 1948 amounted to \$776,413,550. The per capita income for people of Florida in 1940 was \$523, while in 1948 it had reached \$1,010.

The per capita cost of government was \$111.49 in 1940 and \$345.05 in 1948. The ratio of government cost to total increase was 21.3 percent in 1940 and 34.4 percent in 1948.

#### OFFICIALLY NOTIFIED

TALLAHASSEE—Companies still supplying leased wires to bookies in Miami and other Florida cities on the ground they have had no official notification of the law against it, will have that alibi removed Wednesday.

Registered airmail letters went out Tuesday from the office of the railway and public utility commission here to Western Union managers in Miami, Tampa and Jacksonville.

The commission previously had notified only the Orlando office of Western Union.

They said that from past dealings with the company they believed Orlando to be the general state headquarters.

### Christian Science Society

CHURCH OF CHRIST, SCIENTIST  
"MORTALS AND IMMORTALS" is the subject of the Lesson-Sermon which will be read in Churches of the World, Scientist, throughout the world on Sunday, May 15.

The Golden Text is: "This corruptible must put on incorruption, and this mortal must put on immortality" (I Cor. 15:53).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Finally, brethren, whatsoever things are true, whatsoever things are honest, whatsoever things are just, whatsoever things are pure, whatsoever things are lovely, whatsoever things are of good report; if there be any virtue, and if there be any praise, think on these things" (Phil. 4:8).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy:

"Men and women of riper years and larger lessons ought to ripen into health and immortality, instead of lapsing into darkness or gloom. . . . Let us accept Science, relinquish all theories based on sense-testimony, give up imperfect models and illusive ideals; and so let us have one God, one Mind, and that one perfect, producing His own models of excellence" (248:5-8; 249:1).

#### CLOSER ROUTE

TAMPA — Hillsborough County Commissioners have approved a resolution asking the State Road Department to take over and rebuild a 5 1/4 mile stretch of the West Lake Road in Pinellas County, from State Road 584 Northwest of Oldsmar to State Road 582 in the vicinity of Tarpon Springs, to obtain a closer connection from Tampa to U. S. Highway 19 which follows the Gulf Coast from St. Petersburg to Tallahassee.

Commission Chairman Ball, who proposed the resolution, said Pinellas County commissioners would be asked to help obtain favorable action from the State Road Department.

By their action, the Commission apparently abandoned a plan long under study for extending Dale Mabry Highway to connect with the new Gulf Coast Highway at Elfers.

Cadet Corp. Ray Christian, son of Raymond Christian, has been placed on the honor roll at Florida Military Academy, St. Petersburg. Ray will complete his second year at FMA and return home for a summer vacation on May 28.

### Collier Man Tries Again To Kill EDD

TALLAHASSEE — A move by Rep. Graham Copeland of Collier county which might have signed the death warrant of the Everglades Drainage District before paving the way for the overall flood control program to replace it, was defeated in a House committee here Tuesday.

The move came as the House committee on drainage and water control voted to continue until next Monday at 4 p. m. the hearing on the enabling act for south Florida's multi-million dollar flood and water conservation project.

The other bill before the committee was one which provides for the abolition of the present Everglades Drainage District in 1951, on the theory that by that date the overall plan will be functioning and the EDD no longer will be necessary.

Copeland, however, moved to take up the abolishing bill at once. He said: "I want you to understand I'm still for the other bill (the overall bill) I still say I'll vote for that. But I don't see any reason for not disposing of this other matter now."

Reps. John Burwell of Fort Lauderdale and Elbert Stewart of Clewiston immediately attacked the Graham proposal. Later they were joined by Rep. George Okell of Miami.

Stewart also spoke sharply of "the danger of leaving us without any water control in the Everglades."

When it came to the vote, Copeland stood alone. No other member joined him in the immediate consideration move.

Ernest Graham, Miami Dairyman, unsuccessful candidate for the county commission and long-time opponent of all water control plans other than his own, was in the committee room but did not speak.

Neither did John Lykes, cattle baron who was here with Graham in 1947 lobbying against the drainage district.

Mr. and Mrs. Paul McLaurin of Ocala were guests of Mr. and Mrs. Leo Maxwell in Pahokee over the weekend.

### New Folk Dances Learned By Scouts

Members of Pahokee Girl Scout Troop Two entertained members of Troop Three and Troop Three's leader, Mrs. C. A. Canipe, at a joint meeting at the Methodist Church Tuesday afternoon.

Four new folk dances which Troop Two has been learning were presented on the program as well as a piano solo by Joyce Lynn Hurt and a vocal duet by Judy Starling and Olive Gonzales. Donna Lynn May was in charge of the program.

Refreshments of cup cakes, rainbow candy, cold drinks were served by members of Troop Two, assisted by their leaders, Mrs. E. P. Holt and Mrs. Farnell Enecks.

Mrs. E. F. McIlwain and daughter, Jill, left Thursday for a visit with relatives in Jacksonville.
